EXPERIENCE

DevSecOps Engineer
Nov 2023 — Present | Atcults · Full-time

› At Atcults Pvt. Ltd., a leading software development and cybersecurity firm, I aim to utilize my expertise in DevOps and security as the new Developer Security and Operations Engineer. In this role, I will be responsible for integrating automated security testing, threat monitoring, and vulnerability remediation within our CI/CD pipeline. With over 3+ years of experience scripting in Python and PowerShell, I will ensure our applications are developed securely through security-as-code practices.

Owner
Dec 2022 — Present | techanv Consulting · Full-time

› At TechAnv, we specialize in providing top-notch IT consulting services to businesses seeking to optimize their technology infrastructure. With our extensive industry knowledge and expertise, we help organizations harness the power of technology to drive growth, efficiency, and innovation.

Security Engineer
Oct 2023 — Nov 2023 | Lucid Growth · Full-time

› I collaborated closely with cross-functional teams to develop and enforce robust security policies, ensuring the organization remained resilient in the face of evolving cybersecurity challenges. Noteworthy achievements include successfully implementing cutting-edge security measures to bolster our defenses and spearheading swift responses to security incidents, thereby minimizing risks and safeguarding critical assets. This role significantly augmented my proficiency in cybersecurity practices and risk management, solidifying my capability to uphold the confidentiality, integrity, and availability of vital systems and data.

IT Specialist | System Support Analyst | Lab Technician
Nov 2022 — Oct 2023 | Parul University (Internship)

› Worked on the following services at Parul University as IT Specialist - Incident Response, Palo Alto Networks, SQL, Network Address Translation (NAT), Troubleshooting, Amazon Web Services (AWS), Windows, Information Security, Microsoft Endpoint Configuration Manager, Python (Programming Language), Red Hat Linux
